

## BitBucket – Atualizando o projeto no Visual Studio

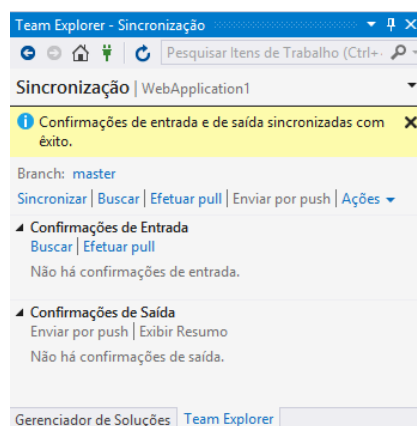

Abra o projeto no Visual Studio.

Após abrir o projeto, vá em Team Explorer e clique em Sincronizar. Faça sempre isso para que tenha o código mais atualizado.

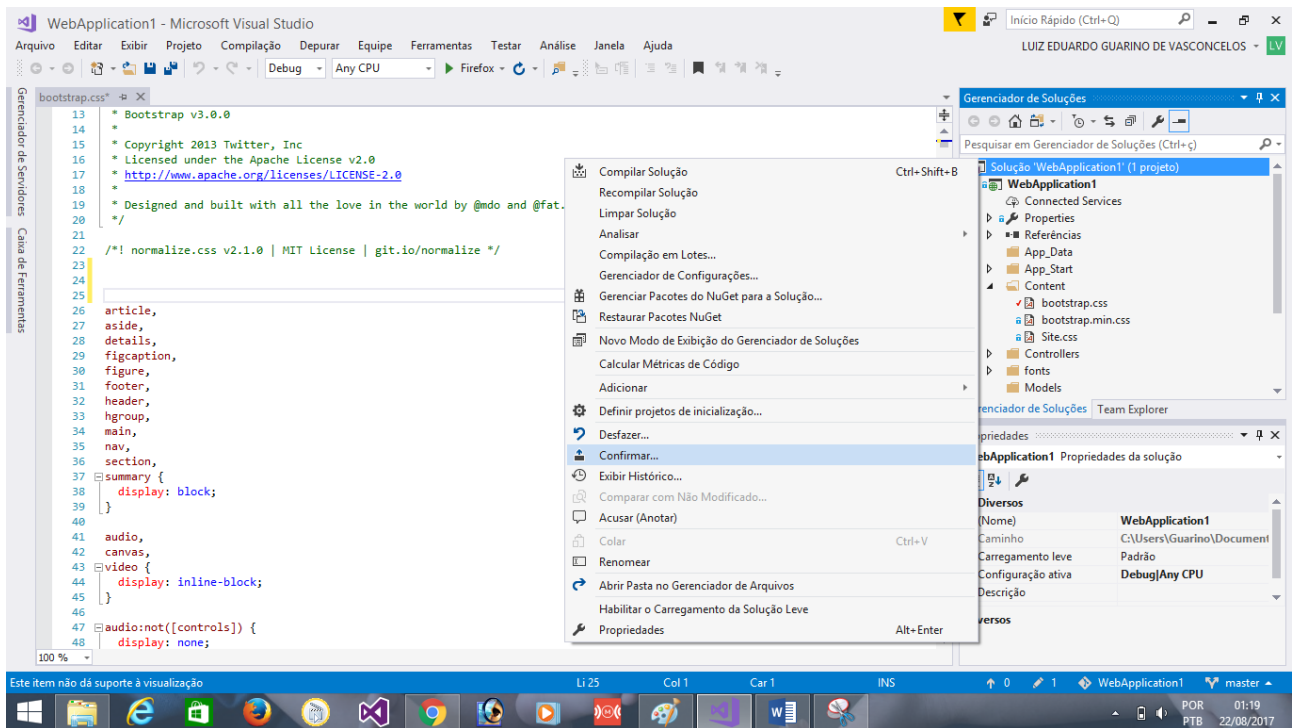

Deverá aparecer a mensagem abaixo.

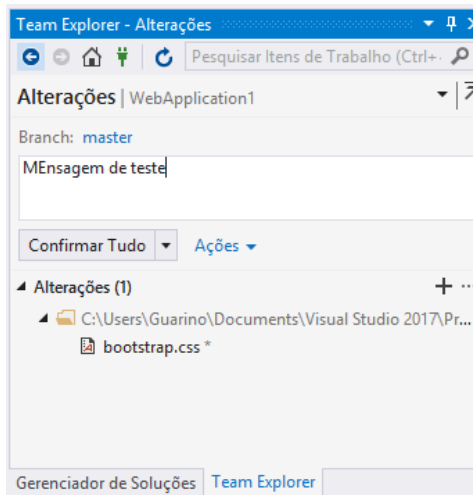

Faça a alteração que desejar.

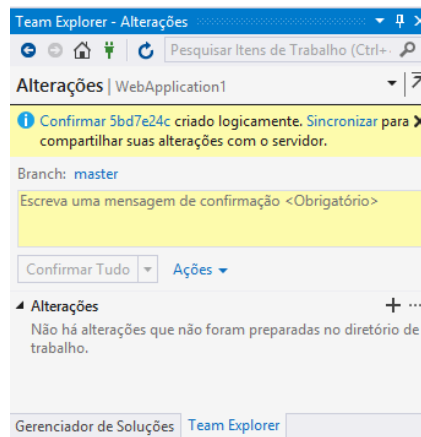

Botão direito no Projeto > Clique em Confirmar

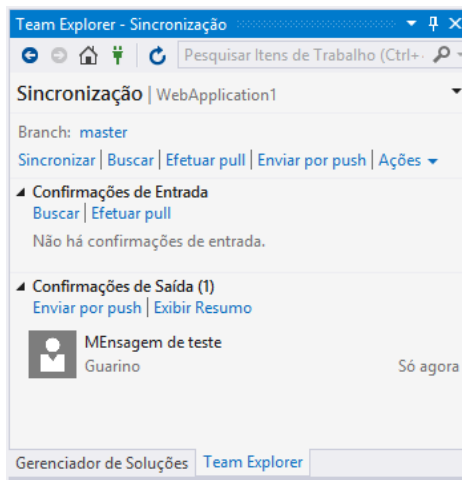

Coloque uma mensagem e clique em Confirmar Tudo.

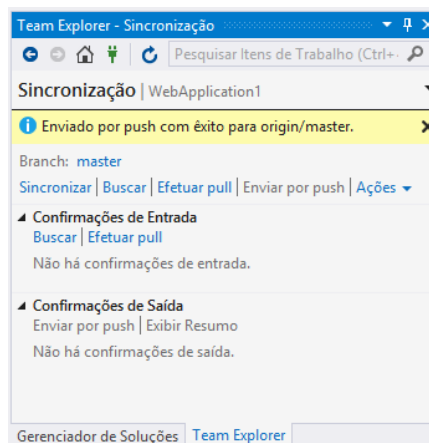

Depois clique em Sincronizar.

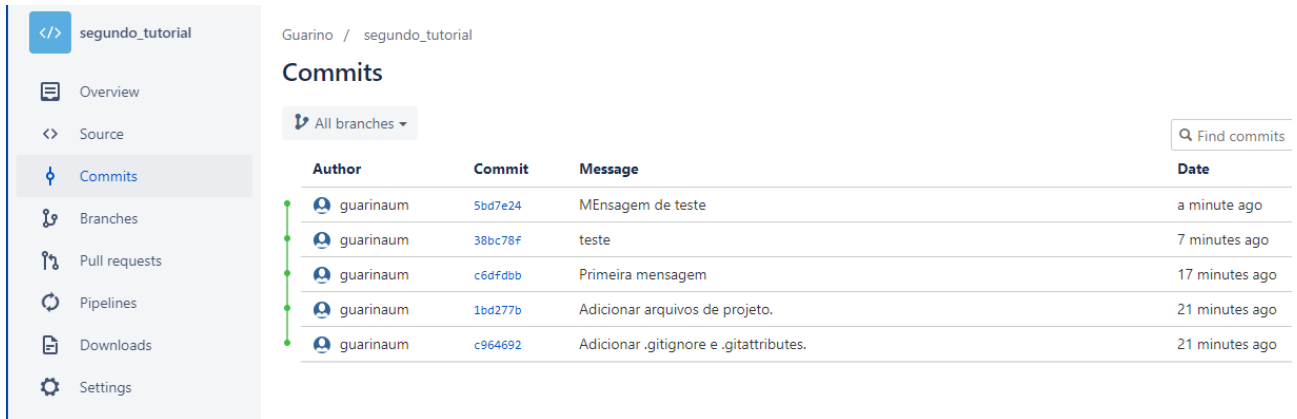

Depois em Confirmações de Saída, clique em Enviar por Push.

A mensagem abaixo deverá aparecer.

Visualize os commits realizados no Bit Bucket.

The screenshot displays the BitBucket interface for a repository named 'segundo\_tutorial'. On the left, a sidebar menu includes options like Overview, Source, Commits (selected), Branches, Pull requests, Pipelines, Downloads, and Settings. The main content area shows the 'Commits' page for the user 'Guarino / segundo\_tutorial'. A dropdown menu is set to 'All branches'. A search bar labeled 'Find commits' is present. Below, a table lists five commits by 'guarinaum' with their respective commit hashes and messages, along with their timestamps.

Author	Commit	Message	Date
guarinaum	5bd7e24	Mensagem de teste	a minute ago
guarinaum	38bc78f	teste	7 minutes ago
guarinaum	c6dfdbb	Primeira mensagem	17 minutes ago
guarinaum	1bd277b	Adicionar arquivos de projeto.	21 minutes ago
guarinaum	c964692	Adicionar .gitignore e .gitattributes.	21 minutes ago
